

RESEARCH INTERESTS	Forecasting, Econometrics, Time Series, Energy, Macroeconomics.
CURRENT POSITIONS	Postdoctoral researcher in the SURE-AI Program at BI Norwegian Business School, Department of Data Science and Analytics, Oslo, Norway (May 2026 – current). The SURE-AI (Centre for Sustainable, Risk-averse and Ethical AI) is a Norwegian research center focused on developing reliable, efficient, and ethically aligned AI systems. It brings together academia and industry to develop and apply cutting-edge quantitative methods in real-world settings. My research at SURE-AI focuses on enhancing forecasting and nowcasting methods for economic time series by integrating advanced mathematical methods with econometric and machine learning models.
PAST POSITIONS	Teaching assistant at Free University of Bolzano/Bözen, Faculty of Economics and Management, Bolzano, Italy (October 2025 – January 2026). My role involved preparing teaching materials, exercises, and empirical applications for courses in Time Series Analysis and Economic Forecasting. Postdoctoral researcher at University of Milan, Department of Economics, Management and Quantitative Methods, Milan, Italy (October 2024 – September 2025). I prepared two papers from my Ph.D. thesis for publication (see Publication #1 and Working Paper #2 in the “Publications” section) and completed a study initiated during my visiting period at BI Norwegian Business School (see Working Paper #3).
EDUCATION	University of Milan & University of Pavia, Italy. Ph.D. in Economics, <i>Doctor Europaeus</i> (10/2021 – 02/2025) Thesis: <i>Nowcasting and forecast evaluation under large instabilities</i> – Advisors: F. Iacone & L. Rossini. University of Rome La Sapienza, Roma, Italy. M.Sc. in Actuarial and Financial Sciences, Department of Statistical Sciences (09/2018 – 05/2021). Thesis: <i>Fundamentals and stock returns: an empirical analysis</i> — Advisor: B. Maggi. B.Sc. in Statistical Sciences. Department of Statistical Sciences (09/2014 – 12/2017) Thesis: <i>The pricing of Asian options</i> — Advisor: G. Castellani. English study period abroad (3 months) at Kaplan International, Auckland (New Zealand). Liceo Classico Benedetto da Norcia, Roma, Italy.
PUBLICATIONS	Publications: - Iacone F., Rossini L., and Viselli A. <i>Comparing predictive ability in presence of instability over a very short time</i> The Econometrics Journal (2025). Working papers: - Ravazzolo F., Rossini L., and Viselli A. <i>Modeling European electricity market integration during turbulent times</i> (Submitted to the <i>European Economic Review</i>). - Viselli A. <i>Skilled nowcast combinations during crises</i> (R&R at <i>Studies in Nonlinear Dynamics and Econometrics</i>). - Iacone F., Viselli A. <i>Robust forecast evaluation under extreme shocks</i> (submitted to the <i>International Journal of Forecasting</i>).
FUNDING & AWARDS	Research fellowship from University of Milan, €29K (2024-2025) — Ph.D. Scholarship, €46K (2024).
VISITING PERIODS	Visiting Ph.D. Student at Department of Data Science, BI Norwegian Business School, Oslo, Norway (08/2023 – 01/2024) Under the supervision of Prof. Francesco Ravazzolo, I developed a novel Bayesian econometric methodology

to quantify cross-country differences in the effects of renewable energy generation and fossil fuel prices on electricity prices (see Working Paper #3).

Visiting Ph.D. Student at [Bocconi University](#), Milan, Italy (04/2023 – 05/2023), where I attended advanced econometrics classes taught by Prof. [Massimiliano Marcellino](#).

TEACHING
EXPERIENCE

Teaching assistance:

Econometrics, Facoltà di Economia, [Free University of Bolzano/Bozen](#), Italy — *Time Series*, Department of Economics, Management, and Quantitative Methods, [University of Milan](#), Italy — *Econometrics*, Department of Economics, Management, and Quantitative Methods, [University of Milan](#), Italy — *Bayesian learning and Monte Carlo simulations*, School of industrial and information engineering, [Milan Politecnico](#), Italy — *Mathematics*, Department of Economics, Management, and Quantitative Methods, [University of Milan](#), Italy — *Programming with Matlab*, Department of Economics, Management, and Quantitative Methods, [University of Milan](#), Italy — *Econometrics*, Department of Economics and Management, [University of Pavia](#), Italy.

SEMINARS &
PRESENTATIONS

Seminars:

[BI Norwegian Business School](#), Oslo, Norway, November 29, 2024 — [BI Norwegian Business School](#), Oslo, Norway, November 22, 2023 — [Fondazione Eni Enrico Mattei \(FEEM\)](#), Milan, Italy (01/03/23).

Invited⁽ⁱ⁾ and contributed^(c) presentations, and posters^(p):

[Initiative on Energy Econometrics^{\(i\)}](#), Milan, Italy (01/10/25) — [Modelling Non-standard data and Extremes in Multivariate Environmental Time series \(MNEMET\) Final Workshop^{\(i\)}](#), Trieste, Italy (29/09/25) — [Applied Macroeconomics in a Changing World^{\(c\)}](#), Oslo, Norway (11-12/09/25) — [13th Annual Conference of the International Association for Applied Econometrics \(IAAE\)^{\(c\)}](#), Torino, Italia (25-27/06/25) — [15th RCEA Bayesian Econometrics Workshop^{\(c\)}](#), Las Palmas de Gran Canaria, Spain (9-10/06/25) — [3rd Vienna Workshop on Economic Forecasting 2025^{\(c\)}](#), Vienna, Austria (5-6/06/25) — [11th Italian Congress of Econometrics and Empirical Economics^{\(c\)}](#), Palermo, Italy (29-31/05/25) — [3rd University of East Anglia Time Series Workshop^{\(c\)}](#), Norwich, United Kingdom (22-23/05/25) — [1st Junior Milan Time Series Workshop^{\(c\)}](#), Milan, Italy — [4th Dolomiti Macro Meeting^{\(i\)}](#), Castelrotto, Italy (16-18/06/24) — [28th European Association of Young Economists^{\(c\)}](#), Paris, France (24/05/24) — [Virtual Workshop for Junior Researchers in Time Series \(online\)^{\(c\)}](#) (18/04/24) — [31st Symposium of the Society for Nonlinear Dynamics & Econometrics^{\(c\)}](#), (21/03/24), Padova, Italy.

SERVICE TO
PROFESSION

Organization of scientific events:

Member of the Organizing and Scientific Committee of the 1st [Junior Milan Time Series Workshop](#) (Junior MITSS) at [University of Milan](#), Italy (March 31, 2025) – Member of the Organizing and Scientific Committee of the 1st [Milan Ph.D. Economics Workshop](#) (henceforth MEW) at [University of Milan](#), Italy (June 28, 2023), of the 2nd MEW at [Bicocca University](#), Milan, Italy (September 16, 2024).

Referee service:

Economic Modelling — [Journal of Empirical Finance](#) — [Annals of Applied Statistics](#) — [Spatial Economic Analysis](#) — [Bulletin of Economic Research](#) — [PLOS ONE](#).

OTHER
OUTPUT

The [IT–NOW](#) project delivers real-time predictions of the quarter-on-quarter (QoQ) Italian nominal GDP growth and levels to the general public. The econometric methodology builds on my working paper “Skilled nowcast combinations during crises”, exploiting forecast combinations to nowcast the Italian GDP. To ensure transparency, I also make available historical forecasts.

The [ets4](#) project aims to publish a monthly digest of recent working papers in economic time series forecasting, where each issue will feature a small selection of studies introducing innovative methods relevant to forecasting in macroeconomics, finance, energy, and other areas of economics.

LANGUAGES
& COMPUTER
SKILLS

Italian (mother tongue) — *English* (Fluent)

MATLAB, R, Python, $\text{\LaTeX}$, Stata, GRET, SPSS, Virtual Studio Code, Microsoft Office.
